EDUCATION

B.Tech Computer Science & Engineering

Graphic Era Hill University, Dehradun, Uttarakhand

CGPA: 9.11 / 10.0

Aug, 2023 - Aug, 2027

Relevant Coursework: Operating Systems, DBMS, Algorithms, AI/ML

Class 12th - Kendriya Vidyalaya Sangathan

Haridwar, Uttarakhand

Percentage: 92.4%

Apr, 2022 - Apr, 2023

PROJECTS

- **Lunar Landing Module using Deep Learning and Neural Networks** Nov 2025 – Jan 2026
 - Developed a **Deep Q-Network (DQN)** agent to solve the Gymnasium LunarLander-v3 environment.
 - Improved stability using **Double DQN**, **experience replay**, and target networks over 2000 training episodes.
 - Achieved 58 average reward and optimized learning with **epsilon decay**, reward clipping, and Huber loss.
- **AI-Driven Institutional Inspection System (SIH FINAL)** Aug 2025 – Dec 2025
 - Built a **multi-model AI pipeline** for automated institutional inspection and compliance analysis.
 - Automated infrastructure assessment and building age/sustainability prediction using ML models.
 - Automated **AICTE/UGC** compliance and anomaly detection using institutional inspection data.
- **Encrypty – Secure File Encryption** Mar 2025 – Jul 2025
 - Built a client-side file encryption tool using JavaScript, supporting secure upload, encryption, and decryption.
 - Implemented symmetric encryption and file processing using FileReader and Blob APIs.
 - Designed an upload → encrypt → download workflow while addressing client-side security limitations.
- **Drowsiness Detection System** Sep 2024 – Jan 2025
 - Built a real-time driver monitoring system using CNN-based eye-state classification with 95.4% accuracy.
 - Integrated OpenCV Haar Cascades and MediaPipe for eye, yawning, and head-nodding detection.
 - Implemented temporal filtering and adaptive calibration with audio alerts for fatigue detection.

SKILLS

Languages	C, C++, Python, JavaScript, HTML, CSS
Technology/Framework	React.js, Tailwind CSS
Machine Learning	Reinforcement Learning, CNNs, XGBoost, Neural Networks
Databases	SQL
Tools	Git, GitHub, VS Code
Soft Skills	Collaboration, Strategic Thinking, Project Management, Communication

ACHIEVEMENTS

- **3-Star Coder (Max Rating: 1610)** on **CodeChef**.
- **Finalist in Smart India Hackathon 2024**, demonstrating leadership and adaptability among the top 2.4% teams nationally for **AI-driven institutional inspection (SIH1730)**.
- Cleared the **e-Commerce and Tech Quiz of Flipkart GRID 6.0**, where 480,000+ developers participated.

CERTIFICATIONS

- **Machine Learning by Andrew Ng** (Stanford Online, Jan 2026)
- **AWS Cloud Quest: Solutions Architect** (Amazon, Jan 2025)
- **IBM Generative AI Engineering** (IBM, Jan 2026)
